

RE: Specialists Preferred List

April 6, 2016

Dear Colleague:

There has been a significant change in healthcare since the focus is on quality as well as cost. We have received a number of requests from primary care physicians (PCP's) in regard to the update of a Preferred Specialist List. This list is to help identify the specialists willing to help PCPs meet quality and utilization targets.

Please direct your interest to the committee on why you should be considered for inclusion on a Preferred Specialist List.

Sincerely,

Maria Alazzawi, M.D., MBA
Director of Clinical of Quality

Cc: UOP Board of Directors
PCPs
